Introduction

I have extensive experience as a statistician, data scientist, evaluation scientist, university lecturer, and organizational psychologist.

My background and experience has varied over the years from IT network administration and management to most recently Global HR consulting and analytics and data science support for program evaluation. I delight equally in employee relations, learning and development, crunching numbers, and consulting with and advising global leaders.

I am highly proficient in presenting and lecturing; and using the reporting tools Excel, Tableau, Power BI, R, and Python.
